

**M2 DISTANCE
METER**

M2 DISTANCE METER

Technical Data

Technical features	M2 DISTANCE METER
Measuring Range	0.05m - 40m
Measuring Accuracy	± 2mm
Minimum unit displayed	1mm
Laser Class	II
Laser Type	635nm
Automatic power off	after 180 s
Area, Volume and Indirect Measurements	√
Continuous Measuring	√
Addition / Subtraction	√
Display illumination	√
Battery life (3 V compound battery)	up to 5000 measurements
Dimension	116x54x35mm
Weight	155g
Temperature Range:	
Storage	-25 °C to +70 °C
Operation	0 °C to +40 °C

Description	M2 DISTANCE METER
-------------	-------------------

Make life easier!

M2 is the new economical STONEX laser distance meter.

STONEX M2 give you the possibility to measure distances simply pushing a button, in just few seconds.

With laser-accuracy you save time and money and it makes possible to measure distances precisely to the millimeter in a professional way and to determine inaccessible heights using indirect measuring (Pythagoras function).

STONEX M2 is quick, clever and precise.
